

OIL MEN, REAL ESTATE MEN, AUTO OWNERS

and all others whose business requires a minute knowledge of the county will
be pleased with our

Announcement

That we are taking orders now to be filled April 1, for a map of Carter county, not just an ordinary map at an ordinary price, but a map mounted on cloth and showing the name of the owner of every piece of land in the county, showing the township and section lines, the roads and bridges, the school houses and churches, the political divisions and the running streams. It will be a complete map for those interested in the oil fields and general real estate purposes. The Ardmoreite has a special representative of the Kenyon Map Co. and an expert abstracter, who is now at work compiling the map. Three months will be required to turn it out. These maps will sell for \$5.00, and none will be printed except those ordered in advance. You can place your order with us now for delivery April 1st.
